HOW WE WORK

01 You pick a demo

Tell us which demo you like and what you want different. No 20-page briefs — one conversation is enough.

02 Quote within 24 hours

Fixed price and deadline, no hidden costs. 40% deposit, the rest at launch.

03 We build

Your copy, photos, colours, languages. You review a working version and we do up to two rounds of changes.

04 Launch and care

Domain, EU hosting, SSL, Google registration. Then optional maintenance so you never have to think about it.

WHY CARBON STEALTH

Speed you can measure

We target Lighthouse 95+ on every page: under 2.5 s to load, zero layout jumps. A slow website is an expensive website.

SEO · GEO · AEO built in

Structured data, sitemap, hreflang, local pages and content AI assistants quote. Not an add-on — from the first line.

Multilingual, done properly

Bulgarian, English, Italian — with correct hreflang and localised URLs. Premium has all three, Business two, Start one; more languages as an add-on.

Security and GDPR

EU hosting, HTTPS, strict security headers, no needless cookies. Legal compliance before launch, not after a fine.

Clean code, no lock-in

No WordPress, no plugins that break. The website is yours — code, domain, data. You can take it and leave.

Prices at least 15% below market

We compared public 2026 prices in Bulgaria, Italy and the EU and set ours below them — the same prices as on carbonstealth.eu, excl. VAT. Transparently: the table is on the pricing page.

TELL US WHICH DEMO YOU LIKED

We reply within 24 hours with a fixed price and delivery time — no meeting, no commitment.
